

MOTION BY SUPERVISOR DON KNABE

May 21, 2013

Construction was recently started on the Rowland Heights Community Center at the Pathfinder Community Regional Park in the unincorporated Rowland Heights area. Residents who use the community center may experience difficulties entering from and exiting onto Pathfinder Road. Pathfinder Road is a four-lane highway with a posted speed limit of 45 miles per hour.

The entrance to the Pathfinder Community Regional Park is currently uncontrolled. When the community center opens, an increase in traffic is expected at the park. Community centers are typically frequented by the elderly and families with young children. Because of the volume and speed of traffic on Pathfinder Road, ensuring the safety of the park and community center patrons is imperative.

Additionally, a Buddhist temple and retreat facility is being constructed at 2740-2776 Fullerton Road. Included in their conditional use permit is the requirement that a driveway be constructed to Pathfinder Road as a secondary access. This driveway will be directly across from the park entrance thereby creating a four-approach intersection.

I, THEREFORE, MOVE that the Board of Supervisors instruct the Director of Public Works to install a traffic signal on Pathfinder Road at the entrances to the Rowland Heights Community Center and the Buddhist temple in the unincorporated Rowland Heights area and report back to the Board of Supervisors within 30 days with a schedule to install and activate the signal.
